SQL

PERSONAL PROJECTS

Todos List

- Developed a responsive and user-friendly todos list using HTML, CSS, and JavaScript, allowing users to add, delete, and mark items as completed.

Quiz App

- Developed a Quiz App using React
- Implemented the functionality to answer various questions
- Displayed the total marks earned by the user
- Utilized React components and React hooks for efficient development.

Expense Tracker

- In Expense Tracker, I created a responsive web application using React.js to track daily expenses.

Calculator

- I developed a calculator using HTML, CSS, and JavaScript, implementing the basic mathematical operations and ensuring user-friendly design.

Enrollement Form

- An enrollment form developed using HTML, CSS, and JavaScript to collect user information and validate input before submission.

LANGUAGES

English

Professional Working Proficiency

Urdu

Full Professional Proficiency

INTERESTS

Learning new programming languages and frameworks

Attending technology conferences and meetups

Outdoor activities such as hiking and camping
